

## W2D3

There are many sites on the web where you can get sample code to create a **singly linked list**. You are free to use any one of them so long as you clearly give credit to the website. If you cannot find one, here is one for you!

<https://gist.github.com/es20641/1208340/06d598126d53b048058bc243cbc4e4dd7db9a23a>

To do:

- (a) Implement a recursive algorithm to count the number of nodes.
- (b) Implement a recursive algorithm to reverse the list
